NPIC/D-112-69

MEMORANDUM FOR: Chairman, CIA Patents Board

SUBJECT : Patenting of Hole Cutter

REFERENCE : (a) Record of Invention entitled, "Hole Cutter,"
dated 6 August 1968
(b) Memorandum from Chairman, CIA Patents Board,
Subject: "Determination of Interest," dated
23 February 1969

1. In accordance with established procedures, [] submitted a Record of Invention (Reference (a)) to your office.

2. In reply to the Record of Invention, the CIA Patents Board advised [] (via reference (b)) of the Board's consideration on this matter.

3. I am advised that [] requests that the Government initiate filing action for the subject invention.

4. The invention was reduced to practice in August 1968 in the form of a working prototype and has been in service at NPIC since that time. It is anticipated that its use will continue in the future. It is possible that other Government agencies could also use the subject device.

5. In view of the operational use that this invention has received, it is requested that the Patents Board initiate appropriate action to patent the Hole Cutter.
